

A WILD CARD

# Abundance

## PRESENT CIRCUMSTANCE

*Creating all that you need at all levels for your life and in order to fulfill your vision for your planetary home.*

You have drawn this card of Abundance as a means of shifting your inner and outer living into recognizable accomplishment, success, well-being, satisfaction, health, and mutual exchange with the human and natural systems that have partnered your advancement.

You have a vision for your life that has grown from your heart and from your spirit, a vision that tells you that you are a child of the Universe and are meant to grow in love, wisdom, and a cooperative attitude. You are meant to use your creativity, imagination, and abilities to the fullest extent in order to create a magnificent Earth home for you, those you love, and all the human beings and creatures in your planetary family.

## ANGELIC MESSAGE

*Abundance*

*You live in and with abundance when you accept the power of love to heal, transform, and create. Love is energy, and so when you*

*invoke love for yourself, for others, and for the Earth, you bring universal energy into focus for specific manifestation of tangible materials and events.*

*Those who will be successful in creating and maintaining material advantage in the upcoming years are those to whom advantage over others means nothing. You will be coming into opportunities for specific financial advantages, and these will cause you to see how to reach out to accept these opportunities. Do you reach out only with your ego, which has its own needs to be met, or are you reaching to accept abundance so that you will have extra in order to return some to the natural sources from which your wealth has come?*

*When money, position, or other material advantages are offered, look beneath the surface of success, profit, or an important job title to see if abundance is truly present. Does the person you are doing business with, or do the circumstances from which you hope to make money, comply with the principles of universal abundance: to take only what is required in order to live reasonably upon the Earth, to use all human and natural resources for the benefit of all, and to proceed in all activities with a reverence for all life? If you accept this opportunity, through which physical resources of all kinds can flow, will you be free to express your gratitude and appreciation through a greater spiritual commitment to those who are still in need?*

*Abundance is a state of mind that leads to physical manifestation of physical resources. But, more important, abundance is a state of spirit that initially awakens the mind to its creative possibilities. You are being led toward abundant thinking, feeling, loving, and participating in life so that you will be in a position to encourage wholism in every form wherever you find it.*

## **SPIRITUAL OPPORTUNITY**

The guidance coming to you through this wild card is to accept the fluid beauty of spiritual conviction and allow it to manifest into multiple channels that will benefit you and many other living things. The flower image on this card symbolizes your

present opportunity to realize diverse levels of achievement and improvement. The color green carries the energy of healing, which means you are being guided to heal old beliefs about your relationship with success and monetary advantage.

You are being asked to accept that in the future on your planet, those who successfully draw resources into manifestation will be those with a meaningful vision from which many avenues of success will flow. The Universe blesses the use of resources to support all living things equally. You will find increasing success coming to you so that you are in a better position to feed the same success back to others in order to encourage and heal them.

## **APPLICATION**

Write out the ways in which you intend to use the abundance coming to you. List as many kinds of abundance, in addition to financial and monetary, as you can think of. Ask your children or the children of friends to share their lists of abundance. Write to your local newspaper editors and ask them to publish an article asking people to share with you the things that they consider important kinds of abundance. What becomes obvious to you and your family when you list the many kinds of meaningful abundance that you've discovered? Perhaps you'll find that abundance flows most directly from an attitude appreciating what you already have. When you are putting your present resources to good use, the Universe is more apt to offer you opportunities to do and to use more.
